#### 4. FIRST AID MEASURES

**Emergency and First Aid** 

**Procedures:** 

**In Case of Inhalation:** If inhaled, remove to fresh air. If breathing is difficult, give oxygen. Get medical aid.

In Case of Skin Contact: Wash off with soap and plenty of water. Remove and wash contaminated clothing before

reuse. If skin irritation or rash occurs, seek medical advice/attention.

In Case of Eye Contact: Flush eyes with plenty of water for at least 15 minutes, occasionally lifting the upper and

lower eyelids. Remove contact lenses, if present and easy to do after 5 minutes and continue rinsing for an additional 15 minutes. Get medical attention immediately.

**In Case of Ingestion:** Do NOT induce vomiting. Never give anything by mouth to an unconscious person. Rinse

mouth and slowly drink several glasses of water. Get medical aid if irritation develops and

persists.

Note to Physician: Treat symptomatically and supportively. Show this safety data sheet to the doctor in

attendance.

5. FIRE FIGHTING MEASURES

Flash Pt: NA Method Used: Not Applicable

**Explosive Limits:** LEL: No data. UEL: No data.

Autoignition Pt: NA

Suitable Extinguishing Media: Use alcohol foam, carbon dioxide, or water spray when fighting fires involving this

material.

Fire Fighting Instructions: Evacuate area and fight fire from a safe distance. As in any fire, wear a self-contained

breathing apparatus in pressure-demand, MSHA/NIOSH approved (or equivalent), and

full protective gear.

Flammable Properties and

Hazards:

Remove containers from fire area if you can do so without risk. Cool containers with water spray until well after the fire is out. Increases the flammability of readily oxidizable,

combustible, and organic materials.

**Hazardous Combustion** 

**Products:** 

High temperatures and fire conditions can result in the formation of carbon monoxide and

carbon dioxide, and oxides of: nitrogen.

#### 6. ACCIDENTAL RELEASE MEASURES

Protective Precautions,
Protective Equipment and
Emergency Procedures:

Use proper personal protective equipment as indicated in Section 8.

**Environmental Precautions:** 

Avoid dispersal of spilled material and runoff from making contact with soil, waterways, drains and sewers. Do not allow uncontrolled discharge of product into the environment. Inform appropriate managerial or supervisory personnel of all environmental releases.

Steps To Be Taken In Case Material Is Released Or Spilled: Ensure adequate ventilation. Isolate hazard area. Keep unnecessary and unprotected personnel from entering. ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Prevent further leakage or spillage if safe to do so. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13). Following product recovery, flush area with water.

#### 7. HANDLING AND STORAGE

Precautions To Be Taken in

Handling:

Keep away from heat, sparks and flame. Keep away from sources of ignition - No smoking. Avoid contact with eyes, skin, and clothing. Do not eat, drink, or smoke when using. Do not ingest or inhale. Wash thoroughly after handling.

Precautions To Be Taken in

Storing:

Store in a cool, dry, well-ventilated area away from incompatible substances. Keep away from heat, sparks and flame. Store in original container. Protect containers against
